Catalogue

OF PLANTS AND SEEDS.

1879.

TO OUR PATRONS.

IT gives us pleasure to present to you our new Catalogue of PLANTS and SEEDS revised for 1879. During a quarter of a century, many of you have planted our Seeds and grown our Plants, and the yearly increased demand and continued favor which they meet is an evidence of their excellence and superiority.

Our Plants this season are all in the finest possible health and vigor, in many cases prices have been reduced, and we believe we are justified in saying that, by comparison, you will find our prices lower than any other establishment.

All Plants are sent by Express, unless specially ordered otherwise. We send Plants by mail if desired, but earnestly advise that wherever there is an Express Office, Plants should never be sent by mail, as we not only send larger and finer Plants when sent by express, but they arrive in better condition, and we always add enough gratis to cover express charges.

Our list of Flower Seeds contains all that is requisite for the finest show in large or small gardens.

We have had the pleasure of seeing many annual flowers grown from seeds sold by us, competing successfully for premiums at our state and county fairs, within the last ten or fifteen years.

Our list of Vegetable Seeds will be found very complete, and comprises all that is essential for the various requirements of the kitchen or market Garden. A large proportion of these seeds we grow ourselves from stock that has been selected with the greatest care, and we feel no hesitation in stating that no better seeds can be procured than those offered by us. We are prepared to supply Market Gardeners, Farmers, Florists and other like institutions with the finest Seeds, in bulk, at a low price. The flattering testimonials received from all parts of the country are sufficient proof of their excellence.

Our long experience enables us to offer Seeds of the finest quality; but the best seeds sometimes fail to germinate through many causes; one of the most common is heavy rains after sowing, and the consequent baking of the ground afterwards. Then, again, an untimely frost, or a very cold current of air passing over the shoots immediately on their appearance above ground, may destroy the whole process of vegetation. Then, again, vermin, cut-worms, and other insects scarcely visible, may destroy a crop unknown to the planter. And finally, there are sometimes causes at work which escape the closest observation, owing to conditions of temperature but little understood. For the above reasons we wish to state in this explicit form, that whilst we exercise *the greatest care to have all seeds pure and reliable, it is hereby mutually agreed between ourselves and the purchaser of our seeds, that we do not warrant the same, and are not in any respect liable or responsible for seeds sold by us, or from any loss or damage arising from any failure thereof in any respect.*

We call the attention of our customers to the great reduction we have made, this season, in the prices of all leading articles, from the rates charged in previous years; and also to the important change we have made in regard to mailing *Vegetable Seeds* at catalogue prices. This year our prices are reduced to the basis of purchasers paying delivery charges on all *Vegetable Seeds* to be sent either by express or freight. Whenever it is desired, however, we will, as heretofore, send *Vegetable Seeds* by *Mail;* but in those cases postage must always be added to catalogue prices at the rate of *16 cents per pound.* This change affects only *Vegetable Seeds*, ordered in quantities of one quarter of a pound and upward. When *Vegetable Seeds* are ordered by the packet and ounce, we will send by mail as we have always done, without extra charge.

For instructions how to send money, and other matter interesting to purchasers, see page 3 of cover.

All orders for SEEDS or PLANTS to go by MAIL should be directed, as heretofore, to Brentwood, N. H.; if for PLANTS to go by EXPRESS, they can be ordered either from Brentwood or Manchester.

Orders from unknown correspondents, unless accompanied by a remittance or satisfactory reference, will be sent by express, C. O. D.

No charges for boxes, baskets, or packing, and all packages delivered at Railroad Stations or Express Offices free of charge.

SELECT LIST

OF

VEGETABLE SEEDS,

EMBRACING ALL THE LEADING VARIETIES SUITED TO THE WANTS OF THE MARKET GARDENER, THE FARMER, AND THE FAMILY GARDEN.

OUR Stock of Vegetable Seeds has been selected with the greatest care, so that we feel confident that they can not fail to meet any reasonable expectation; nearly all are grown upon our own grounds, and under our own supervision, and what varieties we have been obliged to procure from abroad, are received from persons of long standing and great reliability, and we have never yet been disappointed in the quality of their seeds. It has been our aim to furnish our customers with the best of seeds, without regard to cost; every new variety has been tested as soon as the seeds could be procured, and, if found of any extra value, has been added to our lists.

FERNS.

These beautiful plants are now coming into very general cultivation; their great diversity and gracefulness of foliage make them much valued as plants for baskets, vases, or rock-work, or as specimen plants for parlor or conservatory.

Price, 15 cents each.

FERNERFOLIA ODORATA. Geranium.

This was raised from the old *Denticulata*, but is much more finely cut in the leaf, and is a very strong grower. It never changes its beautiful, fern-like appearance, and is one of the easiest geraniums to grow at all seasons of the year. The fragrance is pleasing, and it is an exceedingly beautiful plant. 20 cents each.

FITTONIA ARGYRONEURA.

A trailing plant with light green leaves, which are beautifully veined and laced with silver. 25 cents each.

GARDENAS.

An esteemed genus of plants, having an evergreen shining foliage; the flowers are of a beautiful waxy white, and highly odiferous. 35 cents each.

GERANIUM QUERCIFOLIUM NIGRICANS.

A beautiful oak leaf variety, of good habit, producing a dense mass of green leaves, beautifully veined with black. 25 cents each.

GERANIUM, IVY-LEAVED, REMARKABLE.

A large-flowered variety, after the style of the ivy-leaved section, rose and white, with an upright habit. A beautiful and interesting plant, entirely distinct in character. 20 cents each.

GERANIUM, SCENTED. Little Pet.

A dwarf, cut-leaved variety, delightfully fragrant, having the valuable quality of blooming as profusely as the scarlets; flowers bright carmine with black spot.

Price, 20 cents each.

GOLD AND SILVER VARIEGATED GERANIUMS.

We know of no plants that better repay good cultivation than the variegated Geraniums. When well grown, whether in bloom or not, they are a boquet of themselves; there are no plants that are more easily managed, more beautiful or more worthy of cultivation.

Avalanche, one of the whitest-leaved sorts, of vigorous growth, with pure white flowers, making it valuable for massing where a white group or line is required.

Beauty of Calderdale, zone of a bright reddish bronze color, on a yellow and green ground.

Beauty of Oulton, broad yellow leaf with a broad bronze zone.

Mountain of Snow, pure white margin, good leaf and flower.

Mrs. Pollock, of strong robust habit, bronze red zone, edged with yellow.

Napoleon III., leaves smooth, finely rounded, and regularly marked with a broad band of deep fiery crimson; the finest of all silver tricolors.

Perilla, light green center, zone dark bronze, cerise and flesh.

Plutus, very high colored red brown zone, and rich salmon colored flowers.

Plutarch, leaves large, green center, with broad black zone.

Prince Silverwings. This is a very distinct and beautiful kind, with a silver and gold tricolor leaf, a very desirable variety.

Princess Beatrice, quite distinct; it has a fine, large, flat leaf, with a scarlet zone.

Sophia Cusack, very beautiful, with deep-yellow margin, and brilliant-flamed scarlet zone, upon a broken bronze border.

Sunset, one of the most beautiful sorts, with rich, scarlet tinted zone, and broad, deep green margin.

Price, 25 cents each.

ZONALE GERANIUM. Distinction.

The merit of this variety lies in its peculiar leaf markings, the leaves being encircled near the edge with a very narrow zone of deep black.

Price, 25 cents each.

IVY GERANIUM. King Albert.

Flowers rose color, double. Price, 30 cents each.

GERANIUM. Happy Thought.

An entirely new style of leaf marking, differing from the ordinary form in having a large yellow center in the leaf, with an outer band of green at the margin. Flowers magenta rose. A most novel and interesting variety.

Price, 40 cents each.

GERANIUM. Mrs. Taylor.

A distinct variety of the scented geranium, with strong rose fragrance and large scarlet flowers; very useful for summer cut flowers, or as a pot plant for winter. 30 cents each.

GERANIUMS, DOUBLE.

The class of double-flowered Geraniums form an interesting and valuable addition, not only from their novelty, but their great value for bedding out. The sweetest, most beautiful and largest Violet in cultivation. The flowers, measuring 1 1-4 to 1 1-2 inches in diameter, are of a richer and darker blue color than the old Neapolitan variety, and with reddish streaks.

Price, 15 cents each; $1.50 per dozen; $8.00 per hundred.

FRENCH HYBRID GLADIOLUS.

The varieties of this beautiful class are now so numerous, and many of them so much resembling each other, that we do not give a descriptive list of varieties. Our collection, however, is very select, embracing about thirty distinct sorts.

By planting from the middle of April until the middle of June, a constant succession of flowers may be had from early in summer until frost. The bulbs should be planted two or three inches under ground, according to size, and a small stake, two or three feet long, should be placed by each bulb to support the flower stock as it advances in growth.

At the end of the season, about November 1st, or a little later, the bulbs should be dug up and dried in an airy place, well protected from frost.

Price, fine mixed dark varieties, 75 cents per dozen; light varieties, $1.00 per dozen; mixed, all colors, 75 cents per dozen; $5.00 per hundred.

VERBENAS.

Our Verbenas this season are unusually fine, free from mildew, and are very strong and healthy. None but good kinds and good assortment of colors sent out.

Price, assorted colors, 75 cents per dozen; $5 per hundred.

ROSES.

Our roses are mostly grown in pots, and upon their own roots; it is well known that roses transplanted from the open ground often fail to grow, and of those that succeed scarcely any of them bloom the first season; those from pots take root at once and flower abundantly. Purchasers leaving the selection to us, will get a fine assortment of varieties, and generally better plants.
